

Well-Being Screening Tool (WeBeST) Scoring Guide

Directions: Match the item numbers on this Scoring Guide with the item numbers of the WeBeST Response Sheet. For each item, circle on the Scoring Guide the score that corresponds with the item endorsed on the Response Sheet. Transfer that score to the adjacent space for the total scores. After identifying each score corresponding with the child's response and transferring those scores, add the scores in Total column and write the Total Subscore in Box 1 at the bottom of the Scoring Guide.
